**Ethics Case Studies**  
Presentation Evaluation

Directions: Complete the following table during each of the case study presentations. You do not need to fill out the table for your group's presentation.

Case Study	What was "unethical" in this case study?	What was the opinion of the group regarding this case study?	Overall group rating *Check each box that applies
Ford Pinto	- Ford said that fixing the problem was more expensive than lawsuits - "Ford is run by salesmen, not engineers."	Ford made a bad decision from the start to finish.	<input checked="" type="checkbox"/> Each group member had a clear role <input checked="" type="checkbox"/> All information was presented (Key issues, ethical issues, known/unknown facts, conclusion) <input checked="" type="checkbox"/> The information was presented clearly <input checked="" type="checkbox"/> The presentation was easy to follow <input checked="" type="checkbox"/> The presentation included pictures and text appropriately.
Citicorp Tower			<input type="checkbox"/> Each group member had a clear role <input type="checkbox"/> All information was presented (Key issues, ethical issues, known/unknown facts, conclusion) <input type="checkbox"/> The information was presented clearly <input type="checkbox"/> The presentation was easy to follow <input type="checkbox"/> The presentation included pictures and text appropriately.
Air Force Brake Problem	- The company knew they had faulty brakes - Positive reports - Had time to fix brakes but never did	- The org is not wrong for not verifying the Air Force and going with the prospect knowing that the brakes are faulty.	<input checked="" type="checkbox"/> Each group member had a clear role <input checked="" type="checkbox"/> All information was presented (Key issues, ethical issues, known/unknown facts, conclusion) <input checked="" type="checkbox"/> The information was presented clearly <input checked="" type="checkbox"/> The presentation was easy to follow <input checked="" type="checkbox"/> The presentation included pictures and text appropriately.
Hyatt Regency	- The design of the suspension was well changed to make it easier to construct	- They agree that the whole team were at fault, not just the engineer.	<input type="checkbox"/> Each group member had a clear role <input type="checkbox"/> All information was presented (Key issues, ethical issues, known/unknown facts, conclusion) <input type="checkbox"/> The information was presented clearly <input type="checkbox"/> The presentation was easy to follow <input type="checkbox"/> The presentation included pictures and text appropriately.
Chernobyl	- The city was not notified until later. - Chief engineer was seen as experiment and it went wrong	- The events and actions leading to the disaster were unprofessional, unethical and was poorly regulated.	<input checked="" type="checkbox"/> Each group member had a clear role <input checked="" type="checkbox"/> All information was presented (Key issues, ethical issues, known/unknown facts, conclusion) <input checked="" type="checkbox"/> The information was presented clearly <input checked="" type="checkbox"/> The presentation was easy to follow <input checked="" type="checkbox"/> The presentation included pictures and text appropriately.

Peer Evaluation

Directions: On the back of this page evaluate each of your group members for the work on the presentation and during the presentation. Rate each group member out of 5. Provide an explanation for each of your ratings. Failure to provide a peer evaluation will result in a zero for your peer evaluation scores.
